Reach for the Doppler that Works Every Time

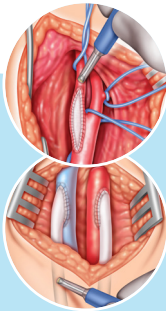

**The Trans-Q-taneous
Intraoperative "TQI" Doppler
System is the Doppler you
can rely on for all your
surgical needs.**

VTI's single-use surgical Doppler probes provide a high degree of reliability since probe failure due to reprocessing is eliminated.

Be Confident in Your Doppler!

Visit VTI at booth #2001 to learn why the TQI Doppler is your *sound* solution for performance reliability.

Visit our TQI product page on our website.
